	Welcome Roland Vogl Opening Keynote Hilarie Bass
9:50AM–10:00AM	Break
10:00AM–11:00AM	Fairness, Accountability, and Transparency of Algorithms Our panel explores the hot topic of Explainable AI or “XAI” for law: <ul style="list-style-type: none">● What is state-of-the-art in explanation relevant to legal services and why it will be of growing importance in law?● How explanation differs from transparency and justification.● Areas of law where explanation is critical or required; areas where is likely not needed.● XAI-Tech or X-Tech: technical capabilities required for "real" explanations of law and legal decisions● The Right to Explanation
11:00AM–11:10PM	Break
11:10AM–12:10PM	Legal Innovation Lightning Round I <ul style="list-style-type: none">● The Shepherd and the Machine: Automating the Citator to Improve Access to the Law● AI for Legal Help: Scouting Legal Issues to Prevent Life Crises

	<ul style="list-style-type: none"> ● Measuring Legal Innovation ● Why We Need to Bridge Data and Knowledge Technology
12:10PM–1:20PM	Lunch
1:20PM–1:40PM	<p>The Legal Tech Startup Landscape</p> <p>Get up to speed on the legal tech startup landscape via the CodeX Techindex, including the latest data contributions to the Techindex.</p>
1:40p - 2:30p	<p>Using AI to Power “Push” Legal Research</p> <p>For the first time in 2017, a handful of AmLaw200 law firms adopted “push” legal research. Substantive legal filings were automatically downloaded and analyzed, and useful case law automatically sent directly to attorneys’ inboxes. This session discusses the early success and pitfalls of this novel approach to legal research.</p>
2:30p - 2:40p	Break
2:40 - 3:30p	<p>Are We in the Golden Age of Regtech?</p> <p>Regtech is coming into its own, as separate and distinct from Fintech. Our panelists explore the development of this growing industry.</p>
3:30PM–4:20PM	<p>Beyond ICOs - Blockchain as Legaltech</p> <p>Blockchain may bring to mind the speculative capitalism for which Silicon Valley is known and that has accompanied the launch of a range of new cryptocurrencies through initial coin offerings (ICOs). Beyond notions of disrupting fundraising and currency systems, blockchain presents an opportunity to affect the base-layer protocols for how we govern value exchange. Our panelists offer an overview of</p>

	issues and opportunities blockchain presents for legal researchers, legal professionals, and legal technologists.
4:20PM–4:30PM	Break
4:30PM–5:30PM	Legal Innovation Lightning Round II <ul style="list-style-type: none"> ● Unnatural Language Processing: Parsing Judicial Opinions ● The New Tasks of the Lawyer of the Future ● Ambiguity - a Feature or a Bug? ● Building a Home for the Stanford NPE Litigation Database: A Case Study in Developing New Legal Analytics Tools
5:30PM - 6:00PM	Closing Keynote: Deborah Rhode
6:00PM	Reception
