Greetings,

Attached you will find the H&S Waiver summary that is responsive to the yellow highlighted inquiry below. I have also attached the original email that included categories i – vi, (the request for the attached summary was category i). In the email, categories ii and iii refer to OAH decisions and 4731 complaints, requesting pertinent data prior to 2011. For category ii, we have data from 1998 to 2011 available, and for category iii, we have data from 2003 to 2011. The Department can provide you with the data, but given its age, cannot assure you that it is complete. Please confirm that you want what is available and I will have my program folks compile the info.

I will follow up once we have additional records responsive to the remainder of your PRAs.
